# The Willow 1961

Willshire High School

# ADMINISTRATION

To the seniors and their sponsor I wish to express my sincere thanks and appreciation for making the last year for Willshire High School a success.

Fruits cannot be grown without the previous planting of seeds. Great leaders do not arise spontaneously in the midst of people; they come because they have been nourished and developed by conditions and institutions. Therefore, the seeding times of leadership are the days of high school.

We as a faculty have seen most of you mature into responsible and intelligent members of society. We know that in due time you will bring forth much good fruit.

As you take your place in the world, remember that the most vital component part of democracy is human relations - respecting the dignity and the integrity of the individual and the group.

May your future be so planned and managed that the important experiences of your life will bring you both honor and satisfaction.

Ray E Black

We, the Senior Class, in recognition of one who has a personal interest in each member of our class to the extent that he will go out of his way to help them, and who unselfishly gave of his time to help our class in our many extracurricular activities. We dedicate this the "1961 Willow" to Mr. Don Black.
